

CARTENGINE

E-Commerce Software

CartEngine is Linkzen's complete e-commerce platform solution — a high-performance, feature-rich online selling system built for businesses of all sizes. From single-product stores to multi-vendor marketplaces, CartEngine provides everything needed to sell online at scale.

Core Features

01 High-Speed Product Listings

Bulk product upload (CSV/Excel), variant management (size, color, weight), and category organization with smart search.

02 Interactive Shopping Cart Module

Persistent cart with saved items, quantity updates, coupon application, and abandoned cart recovery emails.

03 Secure Checkout Pipeline

Multi-step checkout with address management, delivery slot selection, and order summary confirmation.

04 Auto-Generated Invoice Emails

Professional invoice PDFs automatically emailed to customers on order confirmation and delivery.

05 Inventory & Warehouse Management

Real-time stock tracking across multiple warehouses with low-stock alerts and auto-reorder triggers.

06 Multi-Payment Gateway Support

UPI, credit/debit cards, net banking, COD, and EMI options through Razorpay, PayTM, Stripe integration.

Technical Specifications

01 Architecture

Headless e-commerce architecture — decoupled frontend for maximum performance and flexibility.

02 Performance

Sub-2 second page loads; handles 10,000+ concurrent users with auto-scaling.

03 Mobile

Native iOS and Android apps available; PWA support for lightweight mobile experience.

04 Security

PCI DSS compliant payment processing; SSL encryption; fraud detection algorithms.

05 SEO

Server-side rendering, structured data markup, sitemap generation, and canonical URL management.

Seller Tools

01 Vendor Dashboard

Complete analytics — revenue, orders, top products, customer insights, and conversion funnels.

02 Marketing Tools

Built-in email campaigns, discount codes, flash sale scheduler, and loyalty points system.

03 Shipping Integration

Delhivery, BlueDart, Shiprocket integration with real-time tracking updates to customers.

Business Impact

01 Conversion Optimized

Checkout optimized to reduce cart abandonment — average 3.5% conversion rate for our clients.

02 Scalable

Start with a basic store and scale to a full multi-vendor marketplace without migration.

03 Analytics-Driven

Google Analytics 4, Meta Pixel, and custom event tracking built in from day one.
