

PRD : Next Valley School ERP

Product Description: A complete solution for modern educational institutions designed to simplify management and empower education.

The foundational pillars of the ERP system:

- Secure & Reliable: Ensured data protection and system uptime.
- Cloud Based: Accessible from anywhere without local server dependencies.
- Smart Analytics: Built-in tools for data-driven decision-making.
- User Friendly: Intuitive interface designed for all stakeholders.

Detailed Functional ModulesThe ERP consists of 26 core functionalmodules, detailed below:

Dashboard

- Branch Analytics: High-level metrics for Students, Attendance, Fees, and Personnel.
- Quick Links: Fast access to common tasks like Admission, Fee Collection, and Bulk SMS.

Inventory

- Product Cataloging: Maintain a database of school inventory items.
- Vendor Management: Track suppliers and procurement contacts.
- Purchase Tracking: Monitor incoming inventory orders.
- Sales & Invoicing (POS): Point of sale system for internal item sales.
- Internal Stock Issue: Manage the distribution of stock within the institution.

Website Management

- Dynamic CMS Content: Built-in Content Management System for the school website.
- Homepage Slider: Manage main promotional banners.
- Media Gallery: Host and display photos and videos.
- Notice Board Sync: Automatically reflect internal notices on the public website.
- SEO & Theming: Tools to improve search rankings and adjust visual themes.

Reception & Front Desk CRM

- Admission Enquiries (CRM): Track and nurture prospective student leads.
- Postal Records: Log incoming and outgoing physical mail.
- Communications Log: Record of all stakeholder interactions.
- Visitor Tracking: Digital sign-in and monitoring for school guests.
- Complaint Desk: Ticketing system for grievances.

Admission System

- Streamlined Enrollment: End-to-end digital onboarding.
- Online Application Processing: Accept and review applications digitally.
- Custom Intake Links: Generate specific links for different admission campaigns.
- Cross-Class Enrollment: Flexibility for complex admission scenarios.
- Bulk CSV Import: Upload large batches of student data at once.

Student Management

- 360° Student Profiles: Comprehensive view of academic, personal, and financial data.
- Roster Filters (Class/Section): Easy sorting and filtering of student lists.
- Deactivation Module: Handle student transfers or dropouts securely.
- Preserve Financial History: Retain fee records even after a student leaves.

Staff & HR

- Hierarchical Structures: Define reporting lines and department organizations.
- Employee Profiles: Digital records for all staff members.
- Contracts & Documents: Secure storage for employment paperwork.
- Portal Access Control: Role-based permissions for system access.

ID Card & Security Passes

- Variable ID Templates: Customizable designs for different ID types.
- Mass ID Generation: Print batches of IDs for students and staff.
- Exam Admit Cards: Generate secure entry passes for examinations.
- Seat Plan Automation: Organize seating charts automatically.
- Gate Pass Kiosk: Automated passes for temporary exit/entry.

Certificates & Awards

- Smart Templates: Pre-designed templates for various certificates.
- Dynamic Data Tags: Auto-fill student names, dates, and achievements.
- Batch Export: Generate multiple certificates simultaneously.
- Leaving, Transfer & Achievement Certificates: Dedicated workflows for standard school documents.

Payroll & Advances

- Intelligent Salary Matrices: Configure complex compensation structures.
- Auto-Calculated Payroll: Automated monthly salary generation.
- Salary Disbursements: Manage the payout process.
- Advance Requests: Workflow for staff requesting salary advances.
- Pay Deductions (Leaves): Automatic salary adjustments based on leave records.

HR Leaves

- Configurable Leave Types: Setup sick, casual, maternity, etc.
- Digital Approval Workflow: Managerial approval chain for time-off requests.
- Leave Balance Tracking: Real-time visibility into available employee time off.
- Honors & Prizes: Recognition tracking (e.g., Employee of the Month).

Academics & Timetables

- Grade & Section Hierarchies: Map out the school's academic structure.
- Subject Allocation: Assign specific subjects to classes and teachers.
- Visual Timetable: Drag-and-drop scheduling interface.
- Teacher Availability Matrix: Prevent scheduling conflicts.
- Year-End Promotions: Automated workflows for advancing students to the next grade.

Virtual Live Classes

- Meeting Integration (Zoom/Meet): Connect with popular video conferencing tools.
- 1-Click Auto-Join: Seamless entry for students without needing external links.
- Join Analytics & Logs: Track student attendance and participation in virtual classes.

Digital Attachments & Homework

- Content Vault (Docs, Files): Centralized cloud storage for study materials.
- Assignment Tool: Digital distribution of homework.
- Submission Deadlines: Enforce time limits on student work.
- Evaluation & Grading Hub: Digital interface for teachers to grade submissions.

Exam Management

- Flexible Exam Structures: Setup terms, semesters, or custom assessment periods.
- Graphic Marksheets: Visually appealing report card generation.
- Mark Grids (Data Entry): Efficient spreadsheet-style grading input.
- Ranking Automation: Auto-calculate class and subject ranks.
- Configurable Grading: Custom grading scales (Letter grades, GPA, percentages).

CBT Online Exams

- Question Bank: Repository for storing reusable test questions.
- Timed Assessments: Auto-submitting exams with countdown timers.
- Negative Marking: Support for advanced assessment scoring rules.
- Passing Limits: Define minimum scores for success.
- Instant Results: Auto-grading for objective test formats.

Hostel Management

- Live Occupancy Tracker: Real-time view of bed and room availability.
- Building/Room Config: Map out dormitories and residential structures.
- Amenity Billing: Charge for specific hostel add-ons (laundry, AC, etc.).
- Auto-Link to Fee Ledger: Seamlessly add hostel fees to the student's main account.

Transport

- Route Mapping: Define bus routes and stops.
- Stoppage-Based Costs: Variable pricing based on distance/pickup point.
- Transport Billing: Generate invoices for school transport.
- Auto-Link to Fee Ledger: Sync transport costs directly to student billing.

Attendance & Biometrics

- Class Register (Daily): Traditional digital attendance taking.
- Subject-Wise Tracking: Granular attendance per period/class.
- QR/Barcode Sync: Scan-based attendance for large cohorts.
- Biometric Integration: Support for fingerprint or facial recognition hardware.

Library

- Digital Catalog (Books, ISBN): Database for the school's physical media.
- Circulation Desk: Interface for librarians to manage daily tasks.
- Issue & Return Tracking: Log who has which book and when it is due.
- Personal User Ledger: Track late fees and borrowing history per user.

Events Calendar

- Global Calendar: A centralized view of all school happenings.
- Holidays & Events: Highlight days off and major occasions.
- Visible to All Stakeholders: Access for parents, students, and staff.
- Reminders & Alerts: Automated nudges before important dates.

Mass Communication (SMS & Email)

- Broadcast Hub: Send messages to the entire school or specific groups.
- Notification History: Log of all sent communications.
- Due Fee Reminders: Automated nudges for pending payments.
- Automated Birthdays: Send scheduled greetings to students and staff.

Fees & Invoicing

- Dynamic Fee Bundles: Create customizable fee structures for different student profiles.
- Auto-Fines (Late Fees): System-generated penalties for overdue payments.
- POS Collection (Cash/Cheque/Card): Handle on-campus transactions.
- Offline Transfer Approvals: Reconcile bank transfers and direct deposits.
- Ledger Books (12-Month Cards): Comprehensive financial tracking per student.

Office Accounting

- Ledger Creation (Banks, Cash): Manage foundational accounting structures.
- Voucher System: Digital tracking for petty cash and internal expenses.
- Income & Expense Tracking: Overview of institutional cash flow.
- Digital Receipts (Attach Bills): Paperless record keeping for the finance office.

Internal Messaging

- Private Mailbox: Internal email/messaging system.
- Admin, Faculty & Student Communication: Direct channels between all groups.
- Secure & Enclosed Ecosystem: Messages stay within the school's controlled network.

Comprehensive Reports

- Student Analytics: Deep dives into academic and behavioral performance.
- Financial Audits: Tools for reconciling and reviewing accounting practices.
- Exam Outputs (Tabulation Sheets): Broad overviews of testing performance.
- Inventory Logs (Purchases, Sales, Stock Values): Real-time asset reporting.

Product Value Proposition ("Why Next Valley ERP?")

- All-in-One Solution: Consolidates multiple disconnected systems into one platform.
- Save Time & Increase Efficiency: Automates manual administrative tasks.
- Secure Data & Privacy: High-level protection for sensitive student and financial records.
- Data-Driven Decisions: Empowers administration with actionable insights and reports.
- Access Anytime, Anywhere: Cloud infrastructure allows remote management.
- Reliable Support & Updates: Continuous software improvement and customer service.
